

*Dear Michael,*

Thank you very much for your invitation to speak about the group project. For a long time, I've been waiting to speak in front of a public. I never did that before as you know, but I'll give my best.

Right now I have a few topic to talk about in the presentation, but it may came more soon:

- *How the project starts.* Here I can talk about what problems we encounter in our day to day basis, such as time management and we needed an app to solve this.
- *First "Hello World!"*. As you know, almost every app starts with a "Hello World!" and I can say how we progress from the start to our first version. Also, the technologies we used.
- *Challenges.* We faced a lot, bugs, debugs, headaches and so on. It can be a good topic about how we overcame those.
- *Ending.* I still don't know what to say here but I'll think about it.

So, I think the best time to prepare the talk is **this weekend** and the perfect day will be **wednesday morning**.

Recently I've changed my phone number. In case you have ay suggestions before preparation call me to this number **075123123123**.

Best regards  
*Bill*
